WORK EXPERIENCE

Portfolio Website
https://antoniomartinez.tech/

A dynamic showcase of my work, skills, and passion for web development, aiming to demonstrate my proficiency to potential employers. As the sole developer, I integrated technologies and libraries like Vue for the UI/UX, and CSS/SASS for styling. Page navigation is handled through Vue router, the contact page integrates EmailJS and the blogging section utilizes Firebase for hosting, authentication, and data management.

Vehicles Market-place
https://vehicles-marketplace.web.app/

The application enables dealers to register, create accounts, and manage inventory. Users can explore and filter vehicles based on various criteria. As the sole developer, I utilized technologies and libraries such as Vue, Vuex, Vue Router, Firebase, Vuelidate, EmailJS, and Sass.

Winner 23 – The raffle app
web app still in development

"Winner23" is a raffles app wherein users participate in money and appliance raffles. As the front-end developer, I integrated technologies and libraries such as AWS, Vue, Vue Router, Bootstrap, Axios, and Vuex to manage modular organization, data flow, authentication, user profiles, user dashboard, as well as features like landing and results pages.

TECHNICAL SKILLS

- Vue.js
- Vuex
- JavaScript
- HTML5
- CSS3
- Sass
- Responsive Design
- Bootstrap
- Firebase
- APIs
- Git
- GitHub

OTHER SKILLS

- Problem-solving
- Resilience
- Adaptability
- Attention to detail
- Teamwork
- Persistence
- Patience
